

CALL FOR SPECIAL SESSIONS

International Electric Machines & Drives Conference

 **San Francisco, CA May 15-18**

The IEMDC 2023 Organizing Committee invites proposals for Special Sessions to be held during the 2023 IEEE International Electric Machines and Drives Conference in San Francisco, CA from May 15 to May 18, 2023.

IMPORTANT:

Please submit proposals in pdf format by email by:

November 21, 2022 to the Special Sessions Co- Chairs:

- Franck Betin
franck.betin@u-picardie.fr
- Narayan Kar
nkar@uwindsor.ca
- Jagadeesh Tangudu
jagadeesh.tangudu@rtx.com

A Special Session is a group of six papers, organized on the initiative of any volunteer proposing no more than two papers. Special sessions complement the regular technical program by focusing on emerging research topics of growing interest within the scope of the conference. Please avoid submitting special session proposals that are not specific enough or are too general.

Special Session organizers should invite experts in the targeted topic to contribute to the special session. Papers submitted to special sessions will undergo the same review process as regular papers. The special session organizers are responsible for organizing the review process of their respective special session. Special Session proposals should include the following information (please use the template provided on the website):

1. Title of the special session
2. Special session organizers: Names, affiliations, and email addresses
3. Abstract: A brief description of no more than 200 words explaining the focus of the special session
4. Topics of interest
5. List of potential authors: Names, affiliations, and email addresses
6. List of potential reviewers: Names, affiliations, and email addresses
7. Biographies of the organizers
