CALL FOR PAPERS

IMPORTANT DATES

November 21, 2022
Submission of Special Session Proposals

December 16, 2022
Submission of 5-page digests

December 31, 2022
Submission of Tutorial Proposals

February 17, 2023
Acceptance notification

March 31, 2023
Final submission of accepted papers

End of early registration at reduced rates

The 14th IEEE International Electric Machines and Drives Conference (IEMDC) will be held May 15-18, 2023 in San Francisco, CA. IEMDC provides a forum to share technology advances and new developments in design, operation, analysis and applications of electric machines and drives.

The conference program will include plenary sessions with invited speakers, oral and poster technical sessions for papers describing original and previously unpublished work, tutorials, and exhibits. Contributions are invited from industry, academia and other sectors. Accepted and presented papers will be published in the Conference Proceedings, which will be submitted to the IEEE Xplore® digital library. Papers presented at IEMDC may be submitted to IEEE Transactions on Industry Applications, IEEE Transactions on Energy Conversion, IEEE Transactions on Industrial Electronics, or IEEE Transactions on Power Electronics, according to the rules specific to each journal.

Technical papers, tutorials, and special sessions are solicited on subjects related to the scope of the conference including but not limited to the following topics:

- Rotating Electric Machines
- Electric Drives
- Special Machines, Electromagnetic Actuators and Sensors
- Thermal, Materials and Efficiency Issues
- Design Optimization, Modelling and Simulation
- Condition Monitoring, Fault Diagnosis and Prognosis
- Transportation Applications
- Energy and Grid-Connected Applications

Please check https://www.iemdc.org/ for more detailed guidelines regarding digest preparation and submission.
